BREL International

AUTHORIZED DISTRIBUTOR OF
SRT RESISTOR TECHNOLOGY

Resistors

for sophisticated Applications

Precision resistors from SRT Resistor Technology, available through BREL. High-value, high-voltage and high-temperature resistors engineered for the most demanding electronics, plus customized solutions built to your specification.

MADE IN GERMANY · USED WORLDWIDE

10 TΩ	300 °C	6000 V	80 kV
High value resistors	High temperature resistors	High voltage chip resistors	High voltage leaded resistors

SPECIAL FEATURES

- High value resistors up to **10 TΩ**
- High precision resistors
- High temperature resistors up to **300 °C**
- Epoxy-bondable chip resistors
- High voltage chip resistors up to **6000 V**
- Wire-bondable chips / flip chip
- High voltage leaded resistors up to **80 kV**
- Non-magnetic resistors
- Customized solutions

APPLICATIONS

Sensors · Medical electronics · Industrial electronics · Measurement electronics · Security electronics · Avionics & Space · Oil exploration · and many more

NON-MAGNETIC

Resistors available for magnetically sensitive applications

PRODUCT RANGE

SMD Resistors

Leaded Resistors

Other Components

Need a custom resistor solution?
